The IES & Disruptive Technology in the Lighting Industry

The IES Road Show is back! Our Speaker is **Fred Oberkircher**, FIES, Educational IALD, LC. Fred is a recent Illuminating Engineering Society Past President and Professor Emeritus of Texas Christian University and Ambassador for Lighting Education, Philips North America.

The learning objectives for this program include:

- Identify the key changes in the society's search to identify light
- Compare the significant metrics used
- Analyze the current state of evolving disruptive technology
- Predict the effects of these disruptions to the future of light

Please join us for this very "illuminating" event. This program is registered with the AIA/CES for continuing professional education.

When: Friday, Sept. 27, 2013

Lunch: 11:30 a.m.

Program: 12:00 p.m. to 1:00 p.m.

Location: Hilton Garden Inn Cleveland
1100 Carnegie Avenue
Cleveland, OH 44115

Sponsor: IES Cleveland Section

Credit: 1 PDH

Cost: \$30

Student: \$20 (Must bring student ID)

Please pay by check or cash at the event or [use our PayPal Link](#) on our website. Note: If you pay by Credit Card, you don't need to RSVP Mike unless you don't receive an e-mail or sign up two days prior to the event.

President's Report

Welcome to the 2013–2014 IES Cleveland Section program year. We are looking forward to a very full calendar of events this year. Meetings are booking quickly, so if you have a great idea or would like to sponsor a program please get in touch with [Mike Evert](#), our section Program Chair. Please let Mike know the title or subject of your proposed presentation, speaker name and their credentials, and a brief summary of the key learning objectives of the presentation. All submissions will be reviewed by the Board of Managers.

We are still looking for articles for the Light Corner of the Lumen Press. If you would like to write an article about your experiences in the Lighting Industry, or an educational piece, please e-mail me your article to review at Kristen.mallardi@eyelighting.com.

A special thank you to all of our golfers and outing sponsors! Because of your generosity, Nicole Trill of Berea High School was awarded a cash scholarship through the Cleveland Technical Societies Council in May. Nicole will be studying electrical engineering at the University of Toledo this fall. We will also be investing proceeds into a re-launch of the IES Educational program this year under the guidance of our Education Chair, Marian Perez.

Membership in our section continues to grow; we are pleased to welcome the following new members:

Timothy Francis, Union Metal Corporation
Scott Cairns, EYE Lighting International
Ashfaquul Chowdhury, General Electric
Ted Tracy, Philips
Andy Lufi, Karpinski Engineering
Eric Haney, Cree
Brad Barringer, Path Master, Inc.

Thank you for your support of the Local Cleveland IES Section and we hope to see you at future IES Cleveland Section Programs.

Kristen Mallardi, LC

IES Cleveland Section President

Emerging Professionals Program

The Emerging Professionals Initiative of the IES is an organization of members—regardless of membership classification—and provides unique opportunities for mentorship within the IES. Each member shall retain his/her own membership category of student, associate or member while participating in the group.

An Emerging Professional (EP) is a recent graduate entering the workforce for the first time OR a professional making a career move/change. A person shall be considered an emerging professional for five (5) years after graduation or entry into the lighting industry. Students will be considered members of this group.

The benefits of the Emerging Professionals Initiative are numerous and include, but are not limited to, the following:

- Encourages younger members and those new to the Industry to get actively involved in the IES.
- Creates special learning opportunities.
- Creates programs/activities geared toward EP members' interests.
- Develops EP professional skills and abilities.
- Expands the young professionals' recognition in the community.
- Creates new leadership and integrates new ideas into the Society.
- Creates opportunities for Emerging Professionals to share their concerns and needs with each other and to facilitate the fulfillment of those requirements.
- Provides a much needed voice to the Society about future needs.
- Provides opportunities to meet mentors.
- Provides both Local and Society service and career opportunities for Emerging Professionals.

Emerging Professional Chair, Rinara Reh, is open to hear your program suggestions for the upcoming year. Rinara can be contacted at Rinara.reh@ge.com.
